Solution

Our Commercial Vessel insurance is designed to provide a range of coverage options for operators of commercial vessels. Physical damage cover for vessels in-harbour, offshore energy support, tourism, and passenger charter vessels. Includes plain English policy wording or Institute Clauses and boat building risks.

Accidental damage cover including breakdown and mismanagement of refrigeration machinery, plus optional legal defence costs. Cover for legal defence costs is only available for carriers operating under insurer approved contracts.

Comprehensive multi-modal cargo coverage for importers, exporters, and local producers. Covers static risks incidental to transit and worldwide movements. Includes non-containerised, bulk, break-bulk, RO/RO, specialist, and temperature-controlled/perishable cargoes.

With responsibility for watercraft and equipment in their care, custody and control, as well as the potential for claims by third parties for injury, or damage to their property arising from insured activities, this is an essential cover for boat and ship repairers. This policy also provides liability cover for marina owners and operators, boat and yacht clubs, boat dealers, boat builders and other businesses where boats are left in their care.
